EXPERIENCE

Wholistic **Apr 2024 – Aug 2024**
Lead Frontend Developer Lagos, NG

- Developed a subscription-based project management dashboard offering a suite of tools for project, client, and task management, enhancing collaboration and operational efficiency with **React, Typescript, TailwindCSS and Framer-motion**.
- Integrated an AI assistant to provide automated chat services, offering project recommendations, answering user queries, and assisting with task management, significantly improving user productivity.
- Implemented a commenting system across projects, allowing team members to leave detailed comments and feedback, streamlining communication and ensuring clear documentation within the platform using **TipTap** for the Rich Text Editor (RTE).
- Built a project integration system that seamlessly imported documents from Google Workspace and tasks from Slack, automating project scoping and enabling efficient task management across different tools all using **OAuth2.0**.
- Created a WYSIWYG (What You See Is What You Get) template builder using **TipTap**, **Handlebars** and **Framer-motion**, ensuring uniformity and consistency in project updates and weekly email reports, enhancing client communication and report accuracy.
- Enabled user and role creation functionalities, allowing administrators to manage team roles, permissions, and access levels, promoting better security and governance within the platform using **Hooks** and **Typescript**.

Woodcore . **Sep 2022 – Apr 2024**
Senior Frontend Developer Lagos, NG

- Developed and deployed a high-conversion landing page for the company rebrand, increasing customer onboarding by 20% all with **React,Typescript, TailwindCSS and Framer-motion**.
- Championed the migration from Javascript to Typescript, leading a team of 3 developers to:
    - Reduce code bloat by 40,000 lines through DRY enforcement.
    - Decrease integration issues by 50% and development time by 20% by creating in-house components.
    - Lower bug reports by 25% and code errors by 40%.

- Collaborated with backend team to optimize APIs by standardizing CRUD operations and functions, reducing network call time by 30% and facilitating the setup of 300k+ loan accounts all with the help of **Tanstack Query** and its caching functionality.
- Partnered with the lead designer to enhance the admin console UI, resulting in a 15% increase in user efficiency all in **Figma**.
- Enhanced collaboration and link sharing capabilities by moving as much application state as i could to the URL with **Search Params**

Lendsqr **Aug 2022 – Sep 2023**
Senior Software Developer Lagos, NG

- Partnered with cross-functional teams to define, prioritize, and deliver features to 300+ organizations and 1m+ users, enhancing product functionality across stacks and platforms using **React**, **Angular**, **NextJS**, **Node.js**, **Express**, **MySQL**, and **PostgreSQL**.
- Mentored 3 junior developers, ensuring seamless onboarding and integration into out codebases, leading to clear

improvements in their code quality and productivity.
- Initiated brown bag sessions with the Engineering Manager, fostering knowledge sharing among engineers and encouraging discussions on **AWS** infrastructure, frontend frameworks (**React**, **Angular**), micro-interactions (**Framer-motion** and **React Hot Toast**) and backend practices, resulting in increased team collaboration.
- Conducted comprehensive code reviews in **Github** to ensure adherence to coding standards, performance, and security best practices, reducing code errors by 15%.

Lendsqr & Assurdly. **Apr 2023 – Jul 2023**
Frontend Developer Lagos,NG
- Led the development of a Direct Debit management platform, digitizing the Mandate process and improving financial security for our partner banks using **React,Typescript, TailwindCSS and Framer-motion**.
- Implemented security features like inactivity timeouts, two-factor authentication, and role-based permissions, increasing platform security drastically compared to legacy system using **Hooks**, **Typescript** and **Global Event Listeners**.
- Implemented network-level encryption using **Axios** and **Node-forge**, developing a middleware layer that ensures seamless transitions between encrypted and non-encrypted sessions in real-time.

P2Vest & Digithome. **Dec 2021 – Jan 2023**
Frontend Developer Lagos,NG
- Led the build of their lending service platform from the ground up to help civil servants obtain loans more easily using **React, TailwindCSS** and **Framer-motion**.
- Worked closely with the design and product team in **Figma** to optimize user experience and accessibility on the application.
- Earned the opportunity to help build out their new E-Real Estate Management platform by being involved end-to-end from the backend to the frontend in **React** and **Node**.
- Helped improve the search feature by adding filters which better served our growing customer base across all 36 Nigerian states in their **NextJs** application.

AMT Digital. **Feb 2020 – June 2022**
Associate Consultant, Technical Consultant, Lead Technical Consultant Lagos,NG
- Led the integration of various 2nd-party platforms with the NetSuite ERP system, enabling seamless real-time data flow for clients and improving operational efficiency using **HTML**, **CSS**, **Javascript** and **SuiteScript**.
- Developed a Financial Connectivity SuiteApp that automated bank reconciliation processes, reducing errors and managing over 2 million transactions across African clients using **Javascript**, **Suitescript** and the **OKRA API**.
- Managed and led a team of developers, enhancing the company's technical capabilities and increasing overall project delivery strength.
- Mentored and provided guidance to team members, ensuring they developed the necessary skills to perform effectively and deliver quality work.
- Collaborated with cross-functional teams to gather requirements and deliver customized solutions that aligned with business needs.
- Contributed to the design and implementation of key projects, improving customer satisfaction and boosting retention rates.
- Played a pivotal role in driving company growth through strategic technical contributions.

Ericcson **Dec 2019 – Feb 2020**
IT Support Lagos,NG
- Helped facilitate the transition from legacy systems, devices, and operating systems to industry-standard

hardware and software, improving overall system performance and security.
- Provided on-site and remote technical support, resolving hardware, software, and network issues during the migration process to ensure minimal disruption.
- Installed, configured, and maintained new desktops, laptops, and peripherals, ensuring smooth integration with updated systems.
- Managed user accounts and permissions, including password resets and troubleshooting access issues, ensuring a seamless transition for employees.

Airtel Nigeria **Nov 2018 – May 2019**
Intern Network Engineer Lagos,NG

- Monitored network traffic for roaming customers, ensuring seamless service and minimizing disruptions using **BICS**.
- Conducted cross-country tests with roaming partners, performing hourly and weekly uptime checks to maintain service reliability.
- Collaborated with over 160 partner networks to ensure consistent connectivity and optimal performance for roaming customers.
- Provided timely support by communicating downtime updates and clarifications to customers, reducing service interruptions and improving user experience.

EDUCATION

Eastern Mediterranean University **Jan 2018**
Bsc. Information Technology. Cyprus, TR

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, Java
- **Frontend Frameworks:** React, Next.js, Angular, Vue, Nuxt.js
- **Frontend Libraries:** Framer Motion, TailwindCSS, GSAP, Redux, Redux Toolkit, Tanstack Query, React Table, React Hot Toast, Axios
- **Backend Frameworks:** Express.js, NestJS, Prisma
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Hosting & Cloud Services:** Vercel, Netlify, AWS (EC2, S3), DigitalOcean, Azure, Neon
- **CI/CD Tools:** Git, GitHub, GitHub Actions
- **Design Tools:** Figma, Adobe XD
